

A Holiday Bark-uterie Board

The ultimate holiday snack spread

By: Kristine Cannon

What You'll Need:

- A board or platter
- Small bowls
- A mix of dog-safe treats:
 - Fruits and veggies like strawberries, cranberries, apple slices, green beans, and mozzarella
 - Store-bought dog treats they love
- Dog-safe dips or spreads:
 - Xylitol-free peanut butter, pure pumpkin puree, plain Greek yogurt

Instructions:

1. Place your small bowls on the board and fill them with the dog-safe dips and spreads.
2. Add the dog-safe treats around the bowls.
3. Style it! Use large and small treats for a textured and balanced board.
4. Serve to your pups and watch their tails wag.

Pro tip: Always check with your vet before introducing new foods.

Don't overdo it: Treats are special, not supper. Treats should make up no more than 10% of your pup's daily calories—the rest should come from a complete and balanced diet.
